There were nine graves that I couldn't find out who they were. I found out that two of them were baby daughters of Bunk + Thelma Huffman. 17 of the graves have rocks and not many people know the graves apart but except for nine I know who is who. I don't know which of the graves are Bunk's babies. Another grave had a marker but I could barely read the inscription. I believe that this grave is a baby belonging to Lena Vanatter, who is one of Bunk's daughters. Sally Huffman says that Charlie + June Curry have two babies buried there and at least one grandchild. So all this accounts for six of the babies graves, leaving three that I can't figure out.

June's baby boy was James  
June's baby girl was Linda  
June's grandson was Danny
